**DATE:** July 8, 2008

### **PURPOSE**

To approve a construction contract under the 2007 Stormwater Management Unit Price Agreement with W.E. Contracting Co., Inc. for a project in the vicinity of 1793 Blackwillow Drive - Program No. SW0980.

### **BACKGROUND**

Upon responding to an inquiry from a resident in the vicinity of the above address, it was discovered that the stormwater conveyance system in this area (Country Meadows Subdivision, Unit II) has experienced structural failure due to oxidation of the material composing its invert, resulting in the formation of sinkholes along the alignment of the pipe. This project consists of supplying all labor, materials, and equipment time to remove and replace 130 linear feet of 18-inch bituminous coated corrugated metal pipe, one 18-inch precast headwall, and 320 square yards of 4-inch thick concrete driveway; install 6 tons of stone dumped rip-rap; and perform all work required to restore the site.

The lowest responsive contractor from the 2007 Stormwater Management Unit Price Agreement Bid Tabulation, W.E. Contracting Co., Inc., submitted a proposal of \$38,755.00 for this project.

### **FUNDING**

Funding is available in the Water System's Stormwater Drainage Contract R&M Service FY08 Adopted Budget for Fund 510, Department 500, Unit 5758, Program No. SW0980.

Drainage Contract R&M Service      510-500-5758-6496    SW0980-C      \$ 38,755.00

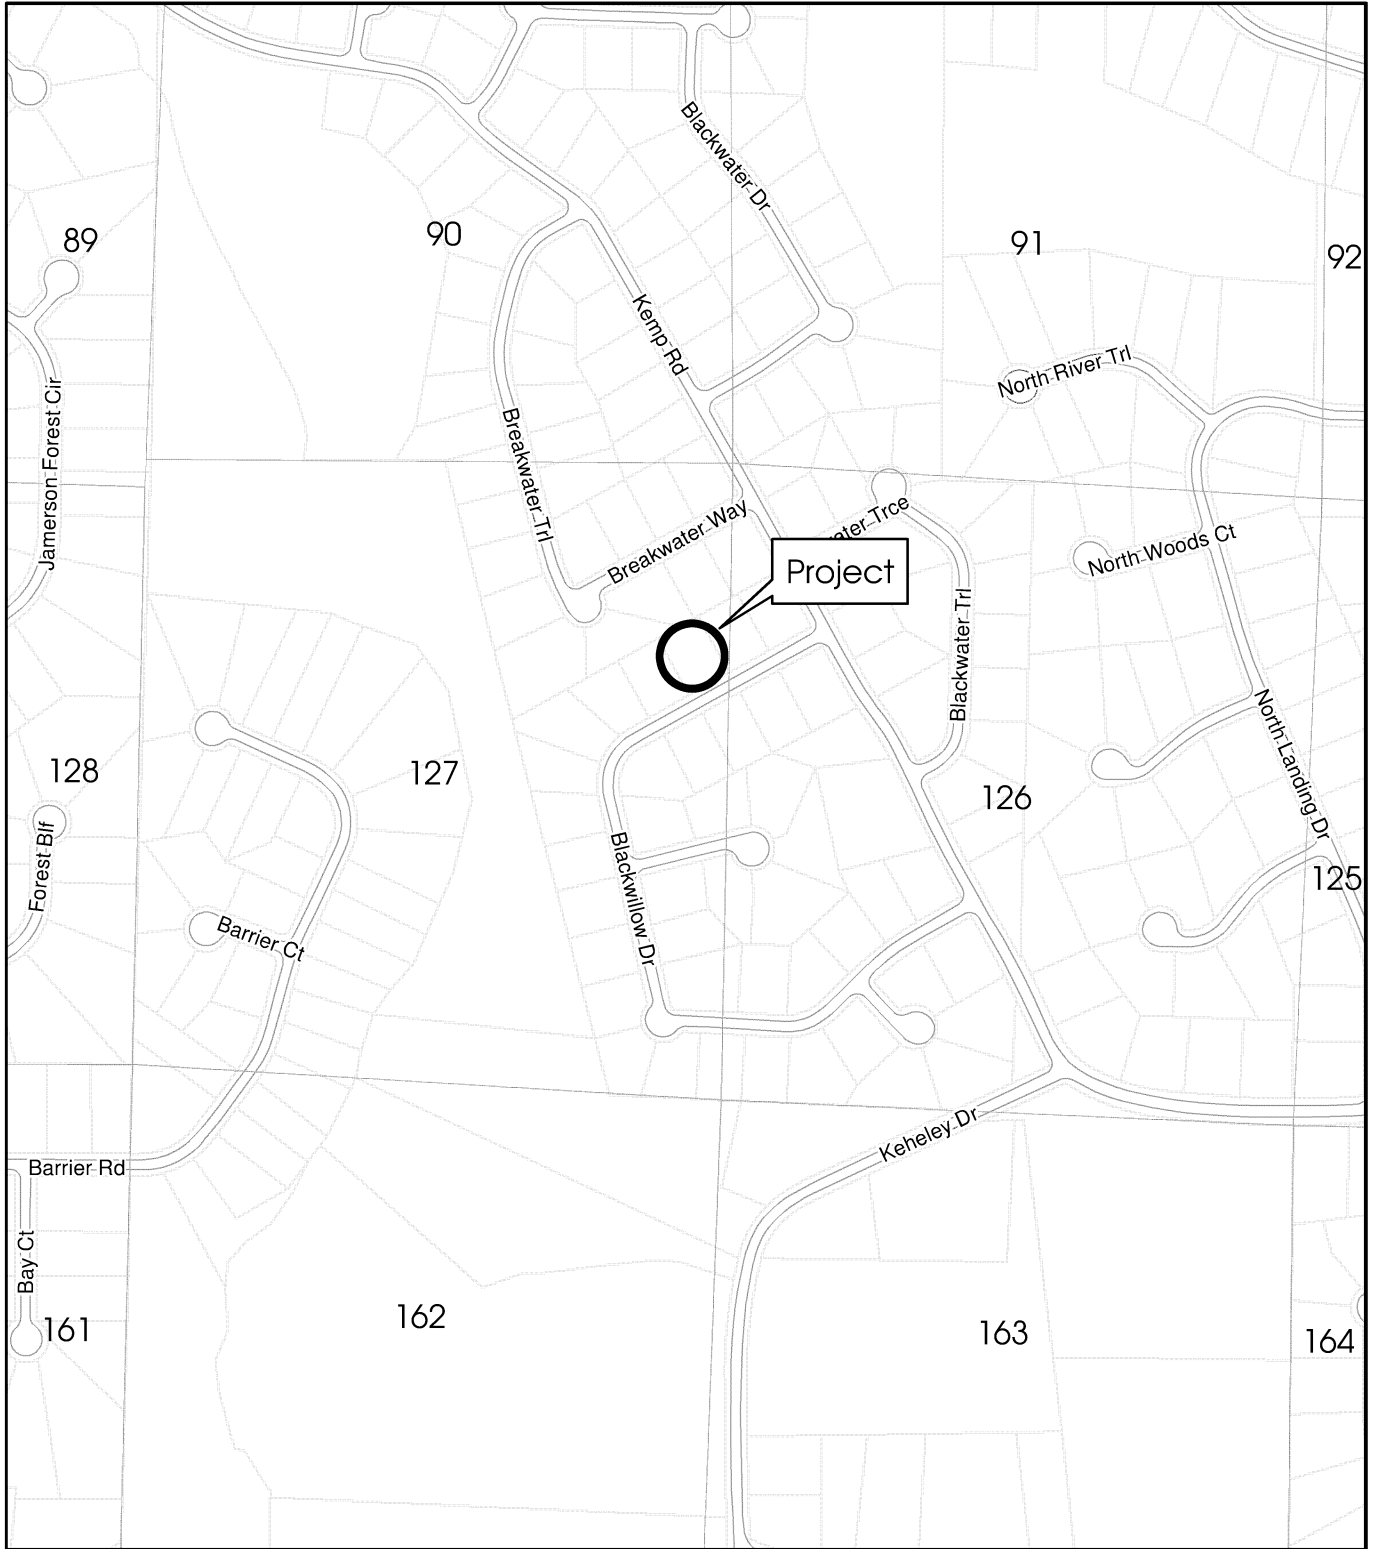

**RECOMMENDATION**

The Board of Commissioners approve a construction contract under the 2007 Stormwater Management Unit Price Agreement with W. E. Contracting Co., Inc., in the amount of \$38,755.00, for a project in the vicinity of 1793 Blackwillow Drive, Program No. SW0980, authorize the corresponding budget transfer, and further authorize the Chairman to execute the necessary documents.

**DATE:** July 8, 2008

### **PURPOSE**

To approve a construction contract under the 2007 Stormwater Management Unit Price Agreement with D & H Construction Company for a project in the vicinity of 4756 Overhill Court - Program No. SW0981.

### **BACKGROUND**

While conducting the County-Wide Inventory program, it was discovered that the stormwater conveyance system in this area (**Ridgewood Creek Subdivision, Unit II**) has experienced structural failure due to oxidation of the material composing its invert, resulting in the formation of sinkholes along the alignment of the pipe. This project consists of supplying all labor, materials, and equipment time to remove and replace 100 linear feet of 18-inch bituminous coated corrugated metal pipe, one 18-inch precast concrete headwall, and one 4-foot diameter catch basin; install 20 tons of stone dumped rip-rap Type III; and perform all work required to restore the site.

**The lowest responsive contractor from the 2007 Stormwater Management Unit Price Agreement Bid Tabulation, D & H Construction Company, submitted a proposal of \$51,777.50 for this project.**

### **FUNDING**

Funding is available in the Water System's Stormwater Drainage Contract R&M Service FY08 Adopted Budget for Fund 510, Department 500, Unit 5758, Program No. SW0981.
